

MERCED IRRIGATION DISTRICT  
MANAGER, ENGINEERING & OPERATIONS, ENERGY RESOURCES  
SALARY D.O.Q.

The Merced Irrigation District (MID), located in California's agriculturally-rich Central Valley, is the leading provider of clean, affordable irrigation water for its 2,200 growers. The District is also the 25th largest public utility in the State, supplying electric service to commercial, industrial and residential customers in Eastern Merced County. The District also owns Lake McClure and Lake McSwain and operates five recreation areas adjacent to these facilities. Lake McClure is formed by New Exchequer Dam, a rock filled dam with reinforced concrete lining on the Merced River. At the base of the dam is a hydroelectric generation facility with a capacity of 94.5 MW of power. MID is within two hours of San Francisco, Sacramento, Monterey and Yosemite.

Under administrative direction of the Deputy General Manager, Energy Resources, the Manager of Engineering & Operations performs complex professional engineering work related to all phases of MID electrical operations, including system modeling and planning, engineering studies, material specification, cost and scheduling estimates and written reports and presentations. Manage the construction, operations and maintenance of distribution and transmission facilities. Hire, train, lead, evaluate and discipline personnel. Provide professional engineering stamp and signature on drawings in conformance with government codes and regulations.

Qualifications include a minimum of 8 years of increasingly responsible experience in the electrical engineering work with 5 years in a supervisory role. Graduation from an accredited four-year college or university with degree in Electrical Engineering. Must possess registration in CA as an Electrical Engineer.

The Merced Irrigation District is a public agency offering a competitive benefit program along with participation in California Public Employees Retirement program.
