International Generator Technical Community, Inc.

800 King Avenue
Columbus, OH 43212
Phone: (360) 753-9126
Fax: (360) 753-6233

The International Generator Technical Community hosts the IGTC Generator Technical Forum, whose mission is connecting industry professionals who are responsible for the service, maintenance and reliability of electric generators. The forum is organized to facilitate access to specialized content and encourage professional interaction between plant management, engineers and academics qualifying for membership. Technical categories address fossil and hydro generators. The site also features a monthly Round Table discussion on timely technical and maintenance concerns, and a resource center that includes a searchable community library. Members are encouraged to participate with online postings in the IGTC Forum, Round Table and Library.

A Better Way

Safety • Efficiency • Innovation

Asplundh has provided a better way for vegetation management for over 80 years through safety, efficiency and innovation. From chippers and insulated aerial lifts, through today's Automated Vehicle Management System (AVMS), these are just a few examples of A Better Way.
