

The City of Riverside, CA is seeking qualified applicants to be a part of our Public Utilities Department. We have the following opportunity available:

Utilities Power Scheduler / Trader (Non-Classified)

\$7,235 - \$9,233/month

The City offers an attractive benefits package which includes State of California Public Employees' Retirement System (CalPERS).

The Position

There is one (1) current full-time vacancy in the Resources Division of the Public Utilities Department. Positions designated as Non-Classified are exempt from the classified service. The Incumbent shall be appointed "at-will" and serve at the pleasure of the City Manager.

Under general supervision, to forecast and monitor short term system load requirements and meet these demands by economic utilization of power resources; to purchase and market electric energy within contractual guidelines; and to do related work as required.

Minimum Qualifications

Education: A Bachelor's Degree in a related field. Up to four years of education may be substituted on a year-for-year basis by additional qualifying experience or experience in electric utility power planning, operations and/or dispatch of power supply resources.

Experience: Two years of experience in generation dispatch, power trading or power and transmission scheduling.

Desired Qualifications:

- Knowledge of power system operation, power system forecasting, power scheduling techniques, energy accounting and operation and use of scheduling computer systems.
- Experience with dispatch of power plant generation and power scheduling within the CAISO.
- Excellent math, communication and negotiating skills.
