An Equal Opportunity Employer

SALARY:

Hourly	Biweekly	Monthly	Annually
\$19.71 - \$26.73	\$1,577.08 - \$2,138.65	\$3,417.00 - \$4,633.75	\$41,004.00 - \$55,605.00

OPENING DATE: 04/09/18

CLOSING DATE: 04/23/18 05:00 PM

DESCRIPTION: Under general supervision, to perform a variety of maintenance trades work.

Distinguishing Characteristics

Line Maintenance Worker I:

This is the entry level in the class series. Positions at this level usually perform most of the duties required of the positions at the II level, but are not expected to function at the same skill level and usually exercise less independent discretion and judgment in matters related to work procedures and methods. Work is usually supervised while in progress and fits an established structure or pattern. Exceptions or changes in procedures are explained in detail as they arise. Since this class is often used as a training class, employees may have only limited or no directly related work experience. Exercises no supervision.

Line Maintenance Worker II/III/IV:

This is the journey level in the class series. Positions at this level are distinguished from the I level by the performance of the full range of duties as assigned, working independently and exercising judgment and initiative. Positions at this level receive only occasional instruction or assistance as new or unusual situations arise, and are fully aware of the operating procedures and policies of the work unit. May exercise technical supervision over lower level staff. Positions in this class series are flexibly staffed and are normally filled by advancement from lower levels by meeting the minimum requirements, successful performance, budget availability, and management recommendation. When filled from the outside, the employee is required to have prior related experience which allows the employee to meet the qualification standards for the position level.

EXAMPLES OF DUTIES:

- Maintains, cleans, and inspects sewer lines and connections;
- Lays pipe and makes necessary repairs;
- Resolves minor and major stoppages and sewage spills;
- Advises property owner of system status and stoppage is in their sewer lateral;
