All Tracked CMUA Bills - Water

Run Date: 4/5/2018

Bill	Summary	Location
AB 816 Kiley, R	<p>California Environmental Protection Agency: Natural Resources Agency: Web casts of public meetings and workshops.</p> <p>Would require that each department, board, and commission of the Natural Resources Agency, except as specified, and each department, board, and office of the California Environmental Protection Agency Web cast all onsite public meetings, in a manner that enables listeners and viewers to ask questions and provide public comment by telephone or electronic communication commensurate with those attending the meeting. The bill would require the agencies to make the recording of a Web cast available online for no less than 3 years for subsequent viewing by interested members of the public.</p> <p>Position: Watch</p>	<p>9/1/2017 - Failed Deadline pursuant to Rule 61(a)(12). (Last location was APPR. SUSPENSE FILE on 8/21/2017) (May be acted upon Jan 2018)</p> <p>9/1/2017 - S . 2 YEAR</p>
AB 1000 Friedman D	<p>Water conveyance: use of facility with unused capacity.</p> <p>Current law prohibits the state or a regional or local public agency from denying a bona fide transferor of water from using a water conveyance facility that has unused capacity for the period of time for which that capacity is available, if fair compensation is paid for that use and other requirements are met. This bill would, notwithstanding that provision, prohibit a transferor of water from using a water conveyance facility that has unused capacity to transfer water from a groundwater basin underlying desert lands, as defined, that is in the vicinity of specified federal lands or state lands to outside of the groundwater basin unless the State Lands Commission, in consultation with the Department of Fish and Wildlife, finds that the transfer of the water will not adversely affect the natural or cultural resources of those federal and state lands.</p> <p>Position: Watch</p>	<p>9/1/2017 - Failed Deadline pursuant to Rule 61(a)(12). (Last location was APPR. SUSPENSE FILE on 8/28/2017) (May be acted upon Jan 2018)</p> <p>9/1/2017 - S . 2 YEAR</p>

The bill would require that the actions of the board under these provisions be deemed an action taken for the protection of the environment for purposes of specified California Environmental Quality Act guidelines, if those actions do not result in the relaxation of streamflow standards.</p> <p>Position: Watch</p>	<p>9/1/2017 - Failed Deadline pursuant to Rule 61(a)(12). (Last location was APPR. SUSPENSE FILE on 7/10/2017) (May be acted upon Jan 2018)</p> <p>9/1/2017 - S . 2 YEAR</p>

Current law authorizes the director to conduct inspections of waters of the state and facilities located within waters of the state that may contain dreissenid mussels and, if those mussels are detected or may be present, order the closure of the waters or facilities to conveyances or otherwise restrict access to the waters or facilities, with the concurrence of the Secretary of the Natural Resources Agency. This bill would also authorize a peace officer to engage in certain of these enforcement activities, as prescribed, and would extend to January 1, 2023, the repeal date of those provisions.</p> <p>Position: Watch</p>	<p>9/1/2017 - Failed Deadline pursuant to Rule 61(a)(12). This bill would require the State Water Resources Control Board, in coordination with the Department of Water Resources, to adopt long-term standards for the efficient use of water, as provided, and performance measures for commercial, industrial, and institutional water use on or before June 30, 2022.</p> <p>Position: Support/Amend</p>	<p>4/4/2018 - From committee chair, with author's amendments: Amend, and re-refer to committee.
